

## Brandlive Style Template: Options for Customizing Events

### Option 1: URL

Let us take the reins! Would you like us to pull logos and styles from your website? Supply the URL and we will match the styling to your company branding, based on your website:

URL:

### Option 2: Basic

If you have something different in mind, provide the fundamental style guidelines for your event page:

1. Transparent logo in PNG format (one white and one color): The width of the image should be no more than 500 pixels. *\*Please attach images to your return email with this form\**
2. Background image or background color:
3. Button color:
4. Text color:

### Option 3: Advanced

If you'd like to get fancy, provide additional style rules for CSS in addition to the basic requirements listed above:

1. Font(s). If it is a custom font, please supply it to us or send a link to where it is hosted. If you have more than one font, we need to know which font is mapped to which part of the event page, e.g. one font for the chat message title and another font for the chat message text. *\* Please attach a font package or font file to your return email with this form\**
2. Border radius (rounded corners). This usually applies to just buttons, but it can be applied to any element on the event page. Please be as specific as possible:
3. Border colors and backgrounds for various elements (product boxes, comments, etc):
4. Button padding, font weight & hover color:
5. Tab color for products:
6. Hyperlink color:
7. Any other special instructions. Please be as specific as possible:
